An event that happens only once in 200 years!!!

Exactly 200 years ago, Reb Noson began printing [Likutey Tefilot](#) – the essence of his teachings and of Rebbe Nachman's call to turn Torah into prayer. Through these prayers, he endeavored to help people who study Rebbe Nachman's teachings to find themselves and their needs in their daily lives. Reb Noson understood this to be of supreme importance, and as he wrote, he firmly believed that these prayers were necessary for everyone. In fact, anyone who reads them can discern their relevance and universal draw.

We at BRI reached the conclusion that indeed, the time had come to republish the English translation of [Likutey](#)

[Tefilot, The Fiftieth Gate](#), with new fonts and in a revamped format that would prove easy to read and appealing, and which would encourage people to make their recitation a regular part of their daily schedule.
