

Chaim Kramer – Parshat Beshalach

written by Chaim Kramer
January 27, 2023

Chaim Kramer explains the weekly Torah portion, Beshalach, in the light of Breslov Chassidut. After the open miracles of the crossing the Red Sea, there was a series of concealments and revelations of Hashem: the falling of the Manna, the water from the rock, Amalek and the defeat of Amalek. Reb Noson shows us the meaning of these concealments and revelations in our lives. Rabbi Kramer explains our mission in light of living with the understanding that by putting ourselves in Hashem's Providence we change the "natural order."
