written by Chaim Kramer

Chaim Kramer explains the connections between counting, the number 7, the 8th day, eating properly, how we use our time, and the Torah portion from a deep Breslov perspective, as he discusses this week's Torah portion of Shemini. During Sefiras HaOmer, Counting the Omer, we are reminded that we must remember that every day counts. Everything we see, hear and experience is a message to us. Like this video?
