

Chaim Kramer – Parshat Terumah

written by Chaim Kramer
February 21, 2023

In this week's Torah portion, we learn the measurements and other details of all the artifacts that were made to go into the mishkan, the sanctuary. Reb Chaim Kramer discusses how the Zohar reveals the connection between the items in the mishkan and the human body. For example, the altar correlates to the stomach, the holy ark corresponds to the human heart, and so on. Reb Chaim also discusses the physio-spiritual process of breath, the menorah of the human head, the deeper meaning of our senses, and more, all with his unique sense of humor.
