

Come and be a partner!

written by breslov.org

My very dear friends,

I'm sure you all recall the period, not long ago, when my father was so ill he almost joined his parents in Gan Eden. But thanks to all your tefillot and dancing on his behalf, he was brought back down to earth so that he could continue his important work.

COVID-19 has halted thousands of businesses, but not the dissemination of Rebbe Nachman's message!

As a son who for the last ten years has been constantly at his father's side in this extremely vital work, I've had occasion to observe how Hashem has guided us with indescribable mercy, in every situation. In times of near despair, when we were on the brink of closure due to debts incurred from large-scale

projects meant to bring more people close to the Rebbe, always, at the last minute, we were saved by a miracle. Indeed, it truly appears that Hashem wants us to continue with all our strength.

These days, when we are still under the impression of Reb Noson's yahrtzeit, we are duty-bound to fulfill his famous words: "Be strong with finances, desire and effort!" With this in mind, we have launched the new campaign that began on Chanukah with the timeless cry, "Mi L'Hashem Elai!" and continues with the request to continue Reb Noson's legacy.

Our goal is simple and clear. At the moment, more than 30 books are out of print. In order to reprint them, we seek 148 partners willing to invest the amount of \$100 x 10 and become an inseparable part of this crucial endeavor. They will also receive as a free gift all the classic books that appear in the photo, as well as a dedication in one of the books.

Baruch Hashem, in the merit of the 96 wonderful partners who have already joined the project, we have gone to print with 14 books! But we still need another 52 partners to reach our goal!

My dear friends, I turn to you with a personal, emotional request. To all who are hesitant and to those who want to help us but haven't yet done so –become part of this project so that we can reprint all the missing books, and you will also receive the very special free gifts.

Don't hesitate! Click [HERE](#) now, and may the merit of Rebbe Nachman and Reb Noson be to your eternal credit.

In deep, true friendship, Zvi Kramer

* * *

P.S. I saw this letter and I give my support to this project. May all who take part merit all blessings.

Rabbi Chaim Kramer
