Counsel in man’s heart is like deep water, but a *man of understanding* will draw it out. – Proverbs 20:5

This book is a first! Generally, BRI publishes books in English and then translates them to many of the languages spoken by Jews throughout the world, including Hebrew. However, this book is our first exception.

“*Ish Tevuna Yidlana*” is the first book in of our new Kabbalah series. With the help of HaShem, we will begin translating this unique book to English shortly. The Breslov Kabbalah series begins by introducing the hidden and seemingly obscure mysteries of the Holy Zohar. After this, these concepts are further elaborated on by the Ari and the many commentaries based on his writings. Finally, Rebbe Nachman and Reb Noson show us how these great secrets are actually relevant and vital in our daily lives.
