Reb Chaim brings the Parsha to life with his unique spirit so we can all live with the Parsha

Even though Yaakov's life was filled with difficulties, his last 17 years were filled with joy and nachas! To show that in life there is always a payback and it is worth the wait.

Yaakov switching his hands when blessing Menashe and Efraim, shows that not always are the elder son's doing their role properly, and a younger sibling can complete the role properly.

A father has to know how to address each child with the proper attention, avoiding favoritism.  
The damage of indulging in food.

You can't have high expectations from your children.  
Naftali's blessing – to learn to thank Hashem for the fruit of  
our labors.
