The long anticipated Breslov Siddur nears completion! We have included on breslov.org a scroll of honor recognizing the many contributors who made the Siddur possible – so many of you shared in this incredible mitzvah. The delay in publishing has been intentional – we are seeking to have these volumes contribute to a higher prayer experience. To that end, we have asked people to “test” daven with the draft pages and offer feedback. Our goal is to have the Weekday Breslov Siddur available this summer. Many donors will also receive a leather version in appreciation for making this possible and available to English-speakers worldwide. Thank you for making this into a reality.
