

The war is in full swing!

written by Zvi Kramer
March 15, 2022

He who is connected to the Tzaddik has the lifeline that he can grasp on to, even when he has fallen into the depths of the turbulent waters!

The war is in full swing!!!

The echoes of the bombings day and night do not give rest even for a moment.

From all directions people fall like flies, fear is stifling and there is no way out.

Every moment one asks what will happen when there will already be peace?

* * *

This description also takes place on a much more inner and deeper level.

The cruel and evil Haman-Amalek has decided to fight us with all his might.

He already smells it is the end so his bombings are also growing.

We are already being attacked by chemical weaponry – the invisible weapon but most harmful.

The number of suicides and those who fall from complete depression is increasing day by day.

Every day's curse is greater than the previous one, and when you look right and left, you do not know where to turn for help.

* * *

Yet, the ray of light flickers in the darkness with an excited cry: There is no despair in the world at all!!!!

Indeed, he who is connected to the Tzaddik has the lifeline that he can grasp on to, even when he has fallen into the depths of the turbulent waters.

There is no despair in the world at all!

As one who can relate to this experience, and of having the possibility of being saved from total insanity, I ask for your help.

Help us print as many books as possible to spread the light of Rebbe Nachman in the world.

Now it's all in your hands to bring on the victory of the war.

There are a variety of gematria in the spirit of the times to make your choice easier. [Click here for your options](#).

Help us win the battle and do not despair!

"Erase the memory of Amalek under the sky. Do not forget!!!"
